

Packaging & Industrial Supplies

Drive Packaging is an industrial supplies and packaging business with diverse packaging solutions. Our commitment is to deliver with minimal fuss, always on time and according to budget. We strive towards being known as the Most Reliable and Cost-Effective Packaging Solutions Company within the Industry.

We are consistently adapting our methods of approach to suit each client's needs, through a great sense of understanding and communication. By not being subject to only one field of the Packaging Supplies industry, we are proud to be both versatile and forward thinking. We firmly believe in Honesty, Reliability, Integrity and Consistency. We also take great pride in Quality Workmanship, and therefore are continuously training our staff in order to guarantee client satisfaction.

Packaging Tape

Single sided tape used for packaging and carton sealing, also sticks on plastic sheeting, bubble wrap etc. With a water-based acrylic it is suitable for light and medium weight sealing.

It's transparent in colour but also comes in various colours.

White Glass Cloth Tape

This tape has glass cloth as the basic carrier and coated with silicone adhesive with a total thickness of 0.18mm.

It features excellent temperature resistance (50- 260 degrees Celsius), good adhesion and tearing resistance.

It's mostly applied for the high strength insulation protection like insulation binding, air conditioners, electrical appliances, digital products, auto mobiles and various kinds of hot coating masking. Easy removal without residue after high temperature application.

Repulpable Splicing Tape

A lightweight double sided repulpable tape designed for high speed flying splices in the paper industry. It has a backing of tissue paper with an adhesive of repulpable acrylic that is less tacky and comes in a light blue colour.

Has an environmental stability over a wide range of temperature and humidity conditions and a total thickness of 0.105mm.

Edge Board / Angle Board

To avoid any kind of damage during transportation, our Edge / Angle boards are widely used in several industries and sectors. These provide optimum protection with fewer complaints.

Environment friendly, made from virgin material and recyclable our edge boards are available in vertical form and work as a protection to the edges.

Product Application:

- ✓ Export packaging
- ✓ Stackable products

PET Strapping

Our PET strapping has a higher tensile strength than PP strapping, there are embossed and smooth for your choice. It covers the heavy duties usage calculated in tons.

It's user friendly and cost effective than steel strapping.

PP Strapping

We also supply PP strapping (Propylene) according to range of your choice such as widths, colours and thicknesses.

PP Strapping is the most common strapping for wide range of applications.

Bubble Wrap

Bubble wrap is also used in the making of padded envelopes and can further be supplied in an anti-static material, which is coloured red, for the wrapping of electronic parts and similar applications where static electricity may be a problem.

All these products can be split into rolls of varying widths or even cut into sheets.

Cushion Kraft

Cushion Kraft is similar to bubble wrap, but comes with a strong Kraft paper backing. It is often preferred and used in the furniture removal industry and is sold in rolls of 1220mm width and 80m lengths.

Foam

This product has many different formats. Whether it is closed cell or open cell it is supplied to order as most applications requires different specifications. It is usually used to protect items in transit. Foam is mostly supplied in sheet or pad form, but can be cut to various shapes and sizes if required.

Sizes: 450x1000x15 micron or 450x2000x15 micron

Labels (Stickers)

A label is a piece of paper, plastic film, cloth, metal or other material affixed to a container of product on which is written or printed information or symbols about the product or item. Labels carry information for the consumer. Some of this information is required by law.

Corrugated Board Boxes (single and double walled)

Corrugated board is made from recycled paper which gives it its characteristic softness, making it easy to bend and conform to various shapes without cracking or tearing. It is often widely used for packaging in various industries. Our corrugated board products are normally supplied in all sizes and shapes according to the clients' packaging needs and specifications.

Wriggly Worms

These are small polystyrene shapes made into the shape of a worm, used to fill in empty gaps and spaces inside packages to prevent articles from moving around and being damaged. They are very lightweight and easy to use.

Package Dividers

Self – locking universal cardboard dividers for segmented protection.

Made from strong corrugated board to give extra protection when in transit.

Any cell size from 2x2” to 12x12” and any combination of cell sizes in between in a single box.

Perforations for simple tear off & lock-in design.

An economical alternative to protective packaging.

Manage packaging inventory.

Galvanized Steel Strapping

Material : Steel

Color : Silver

Design : Rectangular

Application : Industrial

Steel strapping is commonly used to bundle together steel coils, pavers and bricks, roll end binding, baling wire and other metals. Also to secure wide loads within large containers like boxcars, trailers and semi-trailers. Securely closing metal shipping containers and corrugated boxes. Locking items into place atop crates and pallets.

Galvanized Steel Strapping seals (closed)

Unlike open seals, closed seal are threaded on the strap before the tensioning process begins. The nose of the tensioner butts up against the seal. These are designed for securing hand &

pallet strapping and are made of mild steel.
2000 per bag.

Galvanized Steel Strapping seals (open)

We supply open seals for both steel and plastic strapping. The open seals eliminate pre-threading of the seal and speeds the strapping operation. This is the most popular seal and is used

in most strapping operations. These are made of mild steel. 2000 per bag.

Heat Treated HD Wood Pallets

We are a proud supplier of the Euro pallets. Euro pallets are one of the six types that are recognized around the world by the International Organization for Standardization (ISO). They offer a hygienic and environmentally friendly solution to transporting your goods. They come in 1200 X 800mm in size

which is the standard for Euro pallet sizes. They carry a safe working load of 1,500kg and the maximum additional load can be up to 4,000kg when stacking. These are the approved dimensions for transportation. This also makes them an excellent solution to storing goods. Our pallets are crafted to keep items safe and secure.
